

## Specialty Salts

Binet 1660 is a historic French salt house rooted in Batz-sur-Mer, where sea salt has been harvested by hand for centuries using traditional methods. Each crystal is naturally formed through the action of wind and sun, then carefully drained and sorted to preserve its mineral richness and delicate texture.

The collection includes classic fleur de sel as well as distinctive creations such as smoked salt and XO Cognac-flamed sea salt - developed to bring depth, balance, and a refined finishing touch to dishes. Favored by chefs, these salts are designed to enhance ingredients with precision rather than overpower them.

Binet 1660 offers elegant, plastic-free formats suited for both kitchen use and table presentation. Available in multiple sizes, the range adapts seamlessly to hospitality needs while maintaining the same artisanal quality and strong identity.
